1. Installation Guide

- Close e2 studio, if open.
- Copy the board “.pack” file into the folder

`<e2studio_install_dir>\internal\projectgen\arm\Packs`

where `<e2studio_install_dir>` represents the e2studio installation folder. Overwrite potential previous versions.

2. Migration procedure of the projects

After the BSP installation, import the project into the new e2studio version and the update procedure should start automatically when you open the `configuration.xml` file.
